Lubricated by Hand

The SMA K6 machine is used in a wide range of application from leather, canvas, shade cloth, vinyl, rubber and various other coated and laminated products, suitable for all heavy industries. This is an ideal machine, capable of sewing many varieties of work, such as harnesses, shade sails, horse rugs, truck tarps, dog collars and leads, safety belts and many more applications. This machine comes as a complete unit with quality plywood table top, heavy duty stand and major brand motor.

Standard accessories included are extra bobbins, needles, clippers, a range of screwdrivers, oil bottle and an instruction and parts manual.

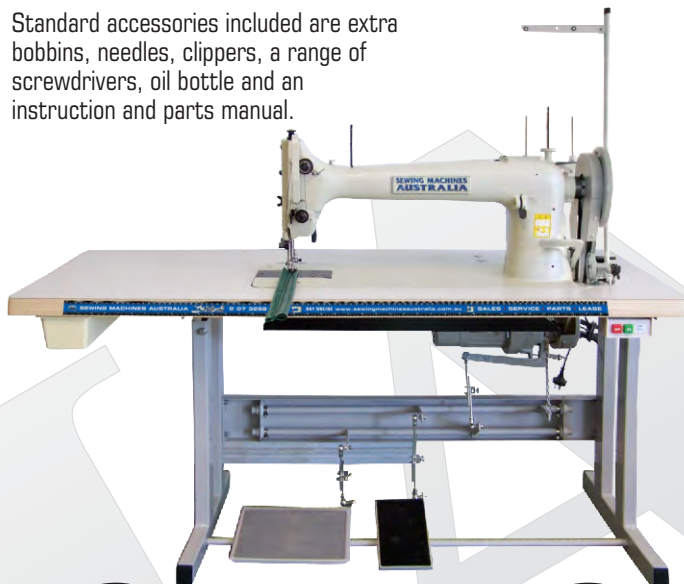

SMA machinery is a very reliable and serious commercial machine brand. Certain major manufacturer's models have been modified and uniquely branded by our SMA technicians over many years, to improve reliability.

Like all machinery technicians, we are aware of problems that may arise. These problems have been eliminated and improved upon, so much so, that the standard manufacturer's warranty has been doubled. SMA offers a standard TWO YEAR machine warranty or 4000 hours, whichever comes first, plus a FIVE YEAR motor warranty.

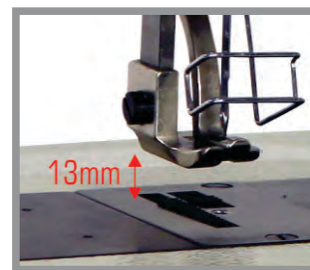

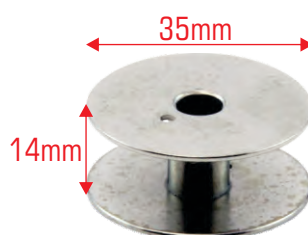

The SMA range of machinery is used in major commercial and domestic industries with many trade references available throughout Australia, New Zealand and America.

**Only proven major manufacturer's machines carry the SMA name.**

Standard accessories included are extra bobbins, needles, clippers, a range of screwdrivers, oil bottle and an instruction and parts manual.

SMA offers easy 24 hour online parts ordering and a standard 5yr Motor and 2yr Machine Warranty.

**MACHINES : PARTS : ACCESSORIES : CONSUMABLES**

Plus ...  
We carry a full range  
of quality accessories  
for everything we sell.
