

SEWING MACHINES AUSTRALIA PTY LTD

MODEL: SMA K6

Heavy-Duty Walking Foot Industrial Sewing Machine

SMA IS A 100% AUSTRALIAN OWNED AND OPERATED COMPANY

Sewing Machines Australia has been selling the SMA K6 machine SINCE 2003 and is based on the popular Singer 132K6 machine but with reverse, our machine has been uniquely modified by our technicians to give an unprecedented and unmatched standard two year machine warranty and quality Melbourne made plywood bench top (unlike any other K6 clone on the market). This is the largest of the walking foot machines and also has the largest working space available in the standard walking foot range. This makes it the ideal machine for the repair of the horse rugs and other larger items. It has no oil bath so those dirty rugs and other products from the equine industry that we know can be messy has little to no effect on the machine allowing the rugs not to be washed before they are sewn on the machine.

SPECIFICATIONS:

| | |
|------------------------|---|

The SMA-K6 is used in a wide range of applications and is our number one selling machine into the equine, canvas, leather and shade cloth industries. This machine is ideal for all aspects of the equine industry and others such as truck tarps, dog collars and leads, safety belts and many more applications.

The SMA K6 is a very reliable and serious commercial machine that has been sold since 2003. Unlike other clones the SMA K6 come standard with Japanese drives and bobbin case and is used in major commercial and domestic industries with many trade references available throughout Australia, New Zealand and America.

You won't be disappointed with your investment.

Standard accessories included are extra bobbins, needles, clippers, a range of screwdrivers, oil bottle and an instruction and parts manual.

SMA offers easy 24 hour online parts ordering, a standard 2yr Motor and 2yr Machine Warranty.
